

Conference Goals

- Determine the significance of home economics in recycling and develop measures to improve productivity.
- Help promote and enhance recycling in the food and apparel sectors and in some domestic waste.
- Support Egypt's Vision 2030 by contributing to environmental preservation and sustainable development.
- Encouraging small projects based on recycling and discovering innovative ways and means to contribute enhancing production efficiency and improving the economic condition of individuals and society

Conference themes and topics

The conference will focus on recycling research and increasing production efficiency in the following areas:

- 1- Food and Nutrition Science (Food wastes, Functional foods, new products, Diet, Therapeutic nutrition)
- 2- Textiles and clothing sciences (Innovative Technical Textiles, Functional clothing, Smart Textiles, Fashion and Design).
- 3- Administration of the Home and Institutions (Recycling of home wastes)
- 4- Education and Home Economics

Submission of abstracts and articles

Abstracts and papers should be submitted via the conference website

(<https://hec22.conferences.ekb.eg>). Articles and abstracts will not be accepted through any other means.

Accepted abstracts and articles should be submitted in accordance with the scientific rules and publishing policy indicated on the Journal of the Faculty of Home Economics website (<https://mkas.journals.ekb.eg>).

The research or its abstract must not have been published in any conferences, journals, bulletins, or scientific periodicals.

The abstract and research must be written in Microsoft Word and formatted according to the requirements stated in the conference link. The number of manuscript pages should be limited to ten (depending on the journal template for publishing), with each additional page charging an additional price. The scientific committee will examine research abstracts and submissions for publishing at the conference, and accepted material will appear in the April issue of the faculty journal. The conference website will include information about the conference's activities and publications.

Deadlines for Abstracts and Articles Submission.

The deadline for abstracts submission is December 31, 2023.

The deadline for submitting accepted papers for publication is February 15, 2024.

The abstract should be at least 150 words and at most 250 words long, and 3-5 keywords should accompany it.

Please visit the conference website for more information.

Workshops and Symposiums

Specialized symposiums will be held during the conference to discuss the latest news in the fields and themes of the conference.

Workshops on recycling and improving productivity will be held with the conference themes.

The conference website will announce the symposiums, workshops, and participation methods.

Exhibitions

The conference is scheduled to include exhibitions in four areas of home economics.

A specialized exhibition will be held on the sidelines of the conference to display the products

of companies and bodies that fall within the scope of the conference, which includes the food and pharmaceutical industries, the ready-made garment industry, the home industries, and others.

Companies and institutions interested in exhibiting at the conference should visit the website.
